PROFILE

Highly motivated Computer Engineering student passionate about cybersecurity, AI, and software development. Combines technical expertise in Python and secure systems with a practical background in multimedia and administration. Demonstrated ability to build real-world applications and smart technology solutions. A strong communicator and team player, eager to leverage technical and creative skills to drive innovation in a dynamic tech environment.

EDUCATION

Bachelor of Science in Computer Engineering

Al-Quds University | Abu Dis, Palestine
Expected Graduation: 2030

PROJECTS

MedicalVault – Medical Cybersecurity:

(<https://github.com/ameermashahrh/MedicalVaul>)

- Developed a Python-based application designed to enhance the security and privacy of electronic medical records.
- Implemented robust user authentication protocols and secure data management functionalities.
- Utilized Python, SQLite, and Git/GitHub for efficient source code development, testing, and version control.

Smart Stadium Access Control

- Designed an automated smart stadium seat access and ticketing system leveraging QR code technology.
- Built real-time ticket validation and dynamic seat management features to streamline user entry.
- Applied Python, OpenCV, QR Code libraries, and SQLite to ensure reliable and seamless system operations.

CERTIFICATIONS

- Python Projects Development, ZyTek Engineers. Focused on Object-Oriented Programming (OOP), file handling, and version control using Git & GitHub.
- Cybersecurity Bootcamp, Handesha Sah Club. Completed in August 2025.
- Cybersecurity & Bug Bounty Bootcamp, Society of Engineers and Developers (SED). Completed in 2025.
- AI Foundations & MVP Bootcamp, BinX Tech. A 10-hour intensive training program.
- Excel and AI Usage Course, Community Knowledge & Research Library. A 24-hour training course.

SKILL

- Technical Skills: Python, Object-Oriented Programming (OOP), Git & GitHub, SQLite, OpenCV, QR Code Technology, Cybersecurity Foundations, AI Foundations, Data Entry, Microsoft Excel, Video Editing, Graphic Design.
- Soft Skills: Collaboration, Teamwork, Leadership, Critical Thinking, Effective Communication, Creative Problem Solving.
- Languages: Arabic (Native), English (Intermediate).
